

The Morvan
« Kingdom of cycletourism, yet a little known gem. »
Welcoming to all cyclists in the area around Autun and the Nat. Reg. Parc of the Morvan

Enjoy the area whilst cycling through the beautiful landscape of the Morvan and enjoy more than 2.400 km of prepared circuits for road, racing and mountain bikes. The roads are calm and well kept, the views are magnificent and the hills can be very steep ! The summits are usually not higher than 900 m, but it its up and down all the time and that is why cycling here can be more difficult than in the Alps !

You will find us right in the middle of this beautiful region, where we settled in 1998 :
